

We Customize Our Best Product With :

Priority of Safety

We have established and implemented OHSAS 18001:2007 and ISO 14001:2004 which aims to manage health, safety, and environmental aspects in every working process in our company.

Excellence Quality

We have established and implemented ISO 9001:2008 for Quality Management Systems. We are certified for S, U, U2, U3 stamp (first in South East Asia to be certified for boiler and pressure vessels by ASME), and also achieved NB and R symbol from The National Board of Boiler & Pressure Vessel Inspector.

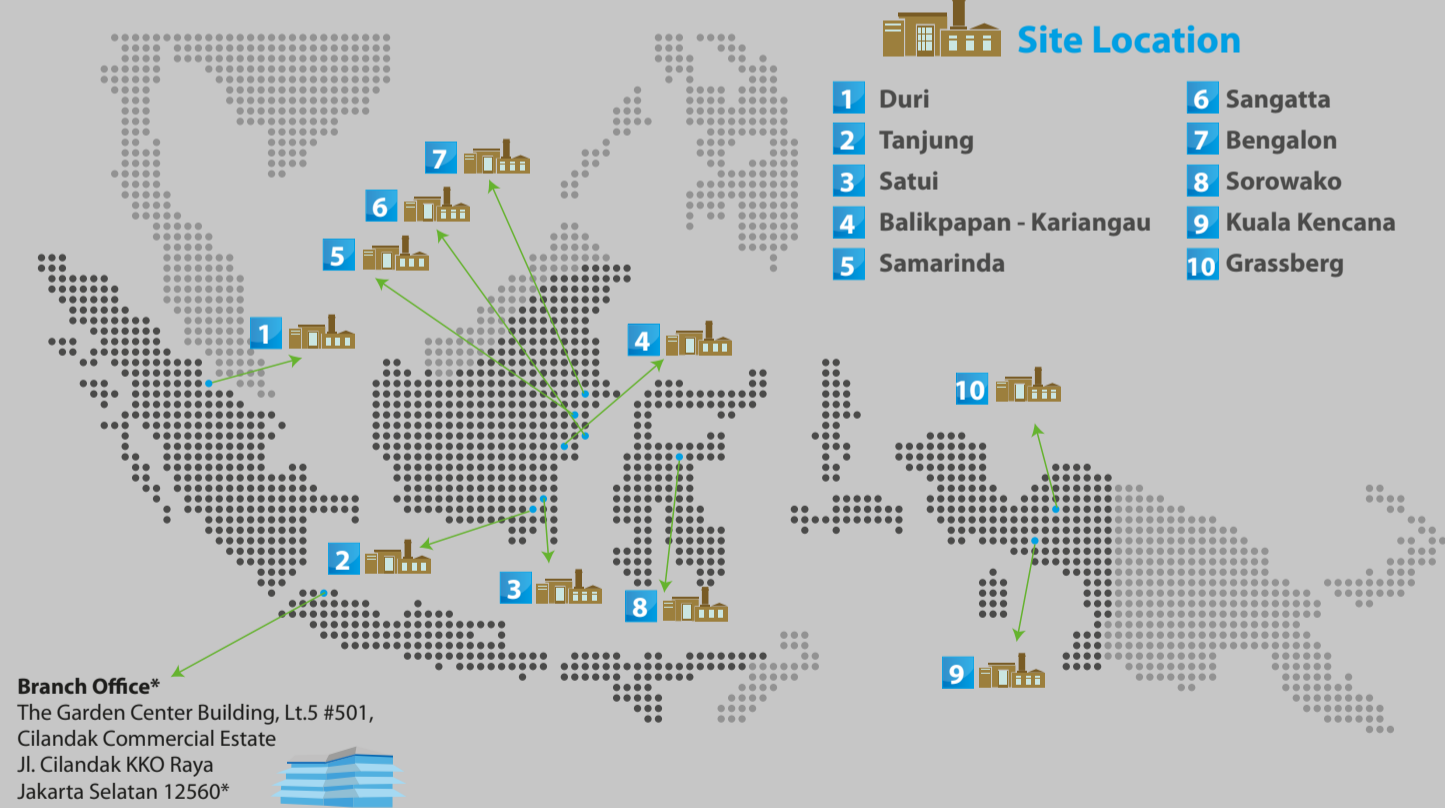

After Sales Service Support

We offer you limited warranty service free of charge with various time periods depending on the type of product. Moreover, we can keep stock of all the spare part in your workshop for the products we sell to you.

Highest Technology

Through a significant investment in equipment and machinery technology combined with skillful resources, we will provide quality and value added products to your company on a competitive scale to world class standard.

PRODUCTS

Manufacturer of Process Equipment, Transport Equipment, Material Handling Products & Power Generation

Process Package Unit

- Separator & Scrubber
- Heat Exchangers (Shell & Tube, Air Cooled)
- Pressure Vessel - Carbon Steel & Exotic Material
- Dehydration Unit
- Heat Recovery Steam Generator (HRSG)
- Chemical Injection Package

Mobile Equipment

- Aviation Refueling Units
- Fuel Transport Tanker
- LPG Tanker
- Low Loader Trailer
- Bulk Lorry Tanker
- Recovery Truck

Material Handling

- Truck Cranes
- Marine Cranes
- Stationary Cranes
- Coal & Woodchip Stackers
- Attachment (Bucket & Grapple)
- Hook Loaders
- Tailgate Loaders
- Construction Logistic
- Man Lift
- Hammar Side Loader

BUSINESS COVERAGE

- Oil & Gas
- Petrochemical
- Power Generation
- Mining
- Agriculture & Forestry
- Logistics

SSB OVERVIEW

PT Sanggar Sarana Baja (SSB), is an engineering and manufacturing company engaged in designing transport and process equipment for Oil & Gas, Petrochemical, Mining and Power Generation Industries. We also provide business services that vary from remanufacturing components of heavy equipment as well as welding and machining services on-site.

Our expertise and proven results since 1977 has helped us built our reputation. Currently we are present in more than 10 sites across Indonesia.

SERVICES

Reconditioning & Salvaging of Heavy Equipment & Pump Component & Group

Specializes in salvaging, re-manufacturing and manufacturing of heavy equipment core components. We implement state of the art salvaging techniques, strict re-use guidelines, and advanced manufacturing systems.

Key Products:

- Hydraulic Cylinder
- Engine
- Drive Train

Site Repair & Services

Specialist for on-site repairs services for earth moving equipment, process plant maintenance, and construction in mining industry. We genuinely bring the workshop to the site, to help maintain and support your heavy equipment 24 hours a day, 7 days a week to ensure minimum downtime and maximise equipment availability.

Key Product:

- Welding and Line Boring Works
- Earth Moving Equipment (Chassis Refurbish, Dump Body Repair, etc)
- Attachment Product (Integrated Tools Carrier, ROPS/FOPS, etc)

Mine Truck & Bus

- Dump Trays & Tailgates
- End & Side Tip Dump Trucks
- Supporting Equipment: Fuel, Water & Lube Service
- OHT Bodies: Standard and Light Bodies
- Tilting Trays Truck
- Man Haul Bodies
- Side Tip Trailers

General Fabrication

- Tank (shop and site erected tanks)
 - * Spherical Tank
 - * Single/Double Walled Tank
 - * Cryogenic tank
 - * Stack, Ducting, Silo, Hoppers, Carbon Steel/Stainless Steel
 - * Steel Structure
